

Invitation side-event Esri Thursday 7 April

Title: Modernization of National Statistical Organization (NSO) Business Processes using GIS

Dear Workshop Participants,

We have the pleasure of inviting you to participate in a lunch time event during the ISI Workshop in Yaoundé, Cameroon. The side event is organized by Esri, in collaboration with ISI, to inform participants as to the value of GIS in the Modernization of NSO Business Processes.

This session will look at the trends impacting today's NSO as well as discuss challenges faced in modernization and adoption of these new technologies.

This session will focus on key business processes and the change over time as well as the changing paradigm of data collection and dissemination. It will also include a case study presentation by Cabo Verde.

President Antonio Duarte will give an overview of how INE Cabo Verde was able to apply GIS technology to their workflows. He will share information on results and be able to address questions on time and cost savings as well as improvements in accuracy. Lunch will be provided.

Date: Thursday 7 April

Time: 1:30 to 2:30

Speakers/Agenda:

- ESRI – Christian Nolaze [EN](#) [FR](#)
- INE Cabo Verde –Clodomir Pereira [EN](#)
- Open Discussion

Please confirm your participation at http://www.isi-web.org/index.php?option=com_rsform&formId=71
