

Bernoulli Society News September 2015

Call for nominations for Doeblin Prize

The Bernoulli Society welcomes nominations for the third Wolfgang Doeblin Prize for Outstanding Research in Probability, to be awarded at the 9th World Congress of Probability and Statistics in Toronto in 2016. Each nomination should offer a brief case in support and should be sent to balint.toth@bristol.ac.uk by 30 November 2015.

Founded in 2011, the prize is awarded bi-annually to a single individual for outstanding research in the field of probability theory, and who is at the beginning of their mathematical career. See <http://goo.gl/gAtuUf>.

Call for bids for European Meeting of Statisticians in 2019

The European Regional Committee of the Bernoulli Society invites bids to host the European Meeting of Statisticians in 2019. Each bid should be sent to r.samworth@statslab.cam.ac.uk by 31 January. See <http://goo.gl/21XohK>.

9th World Congress of Probability and Statistics, Toronto, 11-15 July 2016

The 9th World Congress of Probability and Statistics is the latest in a series organized jointly by the Bernoulli Society and the Institute of Mathematical Statistics. Held every four years, it is a worldwide event covering all branches of statistics and probability. This includes theoretical, methodological, applied and computational statistics and probability, as well as stochastic processes. The latest scientific developments in all of these fields are showcased. See <http://goo.gl/YdjeOu>.

Pre-meeting to the WCPS for Young Researchers, Toronto, 7-8 July 2016

A meeting preceding the 9th World Congress of Probability and Statistics will be hosted at the Fields Institute and will offer special lectures for young researchers with overarching theme "Big Data: Statistical, Computational and Mathematical Issues". Funding will be available for young researchers from developing countries to attend.

Junior Female Researchers in Probability, Berlin, 22-23 October 2015

The goal of the workshop is to offer junior female researchers in stochastics a platform to talk about their own research work and to get acquainted with important research topics presented by well-established female researchers.

Keynote Speakers: Kavita Ramanan, Nadia Sidorova. Invited Speakers: Christa Cuchiero, Hanna Döring, Zorana Grbac, Hao Wu.

Deadline for registration: 15 September 2015. See <http://goo.gl/gizW6C>.
