

IAOS News April 2016

Initiative for supporting the former President of the Hellenic Statistical Authority

The IAOS supports the [Andreas V. Georgiou legal defence fund](#) – an initiative to help finance the legal defence costs of Andreas V. Georgiou, the former President of the Hellenic Statistical Authority (ELSTAT) from 2010-2015 who is facing long-running legal procedures.

For the sake of independence of official statistics, IAOS calls upon the international statistical community for financial support to the [Andreas V. Georgiou legal defence fund](#).

For more information, see [here](#).
