

IASE News June 2016: Upcoming conferences

South African Statistical Association Conference, 28 November - 1 December 2016

The University of Cape Town looks forward to welcoming the Statistics community, including people from academia and industry, to Cape Town for the SASA 2016 conference from 28 November to 1 December 2016. The venue will be the Kramer building on Middle Campus. The conference aim is to bring statisticians and other quantitative researchers from around the country and abroad together in Cape Town to share their research; to discuss emerging ideas and challenges in their respective fields; and to showcase our collective achievements in the field of Statistics, Analytics, and Data Science.

Official guest speakers include Professor Trevor Hastie (Stanford University), Professor Marie Hušková (Charles University, Prague), Professor Anestis Antoniadis (Joseph Fourier University in Grenoble & UCT). Abstract submission will open on 1 July. For more information visit the conference website www.sastat.org.za/sasa2016 or email the local organising committee (Francesca.Little@uct.ac.za).

ISI WSC 2017: Call for Short Courses and Special Topic Sessions

Although the 2016 conferences such as the IASE Roundtable and ICME-13 have not yet taken place, planning is proceeding for the ISI WSC 2017, to be held from 16 - 21 July 2017 in Marrakech, Morocco. The conference website <http://www.isi2017.org/> contains information on how to submit proposals for Special Topic Sessions, which are due on 15 August 2016. There is also an opportunity to submit proposals for 1 or 2 day short courses to be given in Marrakech between 13 and 15 July, just before the conference. Detailed information on the submission of proposals can be found here: <https://isi-web.org/images/WSC/2017/Call%20for%20Short%20Course%20Proposals.pdf>.

Mathematics Education for the Future Conference, 10-15 September 2017

The 13th International Conference of the Mathematics Education for the Future Project will be held in Balatonfüred, Hungary, from 10 - 15 September 2017.

The conference title, "Mathematics Education for the next Decade", continues the search for innovation in mathematics, science, computing, and statistics education. Proceedings from

the last conference in Sicily (2015) are available from WTM-Verlag, ISBN 978-3-942197-44-1.

For further details on the 2017 conference and updates, including information about the call for papers, please email alan@cdnalma.poznan.pl
