

Bernoulli Society News August 2016

XIV Latin American Congress of Probability and Mathematical Statistics, San José, Costa Rica, 5-9 December 2016

The Latin American Congress of Probability and Mathematical Statistics is the main event in probability and statistics in the region, having been held roughly every two or three years for almost 30 years. It is organized under the auspices of the Bernoulli Society for Mathematical Statistics and Probability and the Latin-American Society on Probability and Mathematical Statistics. The series of CLAPEMs has greatly contributed to the development of probability and statistics in Latin America by promoting regional cooperation, increasing the scholarly level of the research work in the region, facilitating the collaboration between Latin American researchers and colleagues from the rest of the world.

Invited speakers: Graciela Boente, Alexei Borodin, Pietro Caputo, Rick Durrett, Onésimo Hernández, Jean-Michel Loubes, Eric Moulines, Susan Murphy, David Nualart, Gavin Shaddick, Barry Simon.

Deadline for contributed talks: 5 September 2016. Deadline for poster contributions: 3 October 2016. <http://goo.gl/5tI90L>

XXXIV International Seminar on Stability Problems for Stochastic Models, Debrecen, Hungary, 25-29 August 2017

The XXXIV International Seminar on Stability Problems for Stochastic Models is organized under the auspices of Faculty of Informatics, University of Debrecen, Lomonosov Moscow State University, and Institute of Informatics Problems of the Russian Academy of Sciences. The main sessions are: Limit Theorems and Stability Problems; Stochastic Processes; Statistics of Time Series and Stochastic Processes; Finance, Insurance, Risk; Spatial Statistics; Applied Statistics and Data Analysis; Stochastic Dynamics; Random Graphs; Queuing Theory and Modeling Information Systems; Probability Distributions; Discrete Probability Models; Nonparametric Statistics; Statistical Learning. <https://goo.gl/t3bE3m>

School on Information and Randomness 2016, Santiago de Chile, 5-9 December 2016

This School will cover topics in random processes, ergodic theory, heat kernel and potential theory, Lévy processes, coalescent and fragmentation theory, stochastic differential equations, percolation theory, finance, probabilistic algorithms and particle systems, seeing the latest developments in these areas.

Invited Courses: Anthony Quas, Michael Damron. Invited Talks: Pierre Picco, Pablo Ferrari, Antonio Galves, Pierre Collet, Sebastián Donoso, Michael Schraudner, Pablo Shmerkin, Karl Petersen.

Deadline for travel support application: 15 October 2016. <http://goo.gl/UqzAUm>

Job Offers

* Professor and Associate Professor, University of the Western Cape, South Africa
The Statistics and Population Studies Department at the University of the Western Cape (UWC) is part of the Faculty of Natural Sciences. The Department specializes in the following

two areas: Statistics and Population Studies / Demography.
Deadline: 30 September . <https://goo.gl/PNiGxZ>

* Assistant Professor, Pontifical Catholic University of Chile
The Department of Statistics, Pontifical Catholic University of Chile, announces the opening of two tenure-track positions at the Assistant Professor level, beginning March 2017. Annual salary will be around \$40,300. Candidates should have a doctoral degree in Statistics, Actuarial Science, or a related field and exhibit experience in both research and teaching.
Deadline: 30 September . <http://goo.gl/iXyKFg>

* Assistant Professor, École Polytechnique Fédérale de Lausanne, Switzerland
The School of Basic Sciences at EPFL invites applications for a tenure-track assistant professor in statistics. We seek candidates in all areas of modern statistical methodology, theory, and computation and their interface with the emerging theme of data science. Female candidates are strongly encouraged to apply.
Deadline: 1 November. <https://goo.gl/FqWB8y>
