

## **IASE News January 2018**

### **New Book on Research in Statistics Education**

We would like to announce the following new book on research in statistics education:

The first *International Handbook of Research in Statistics Education* is now published online by Springer:

<https://link.springer.com/book/10.1007%2F978-3-319-66195-7>

Edited by Dani Ben-Zvi, Katie Makar, and Joan Garfield, the book includes chapters on many topics in statistics education. Chapters include older areas such as uncertainty and inference, as well as more recently introduced topics such as learning trajectories and learning environment.
