

IASE News March 2018

- **Registration open for ICOTS 10 - Kyoto in July**

The 10th International Conference on Teaching Statistics will be held from 8 to 13 July in Kyoto, Japan. Registration is now open and accessible through a link at the conference website, icots.info/10, along with a provisional program. ICOTS is the largest IASE event devoted to statistics education, with over 200 papers scheduled across 10 topics.

- **Registration open for online eCOTS in May**

The 2018 electronic conference on teaching statistics sponsored by Causeweb will be held from 21 to 25 May. Keynote sessions, Breakout sessions, and Virtual posters will all be presented online, making them accessible to people around the world. The theme "Data Science for All" might be of interest. The conference is also affordable with registration only \$25USD. For more information, see <https://www.causeweb.org/cause/ecots/ecots18>

- **Proposals for ISI World Statistics Congress 2019**

The deadline for Invited Paper Session proposals for the ISI World Statistics Congress 2019 (Kuala Lumpur, Malaysia, 18-23 August 2019) is fast approaching, at the end of March 2018. A slightly more flexible option that might be of interest, the Special Topic Section, will open in April.

At past events, the IASE has had quality representation and it would be good to continue this trend. Please submit your proposals at <http://www.isi2019.org/call-for-proposal/>. When submitting a proposal, you should indicate that your session could be related to the IASE. More information is available on the IASE website at <http://iase-web.org/News.php>
