

IASE News June 2018

Latest Issue of Statistics Education Research Journal (SERJ) Now Available

Editors Manfred Borovcnik, Jennifer Kaplan, Maxine Pfannkuch and Beth Chance are pleased to announce the publication of a new issue of the Statistics Education Research Journal (SERJ), Volume 17, Number 1. In addition to an editorial and conference list, there are seven research articles on statistics learning. Articles from the current issue, plus archives, are available at http://iase-web.org/Publications.php?p=SERJ_issues

International Conference on Teaching Statistics schedule

The full program schedule for the largest IASE-organized conference this year, the 10th International Conference on Teaching Statistics, is being published in stages on the conference webpage <https://icots.info/10/>

Beginning with administrative and special interest meetings, into invited papers, contributed papers, and posters, the full schedule will be available soon. Feel free to look at the hundreds of contributions to the conference, which will occur from 8 - 13 July in Kyoto, Japan.

Report from Electronic Conference on Teaching Statistics

Organized by Causeweb, the 2018 edition of eCOTS, the electronic conference on teaching statistics, was held from 21- 25 May. Over 30 web-based talks were presented, plus some "Posters and Beyond". For those who missed the event, recordings of many presentations are available at <https://www.causeweb.org/cause/ecots/ecots18>
