

## IAOS News April 2019

### Statistical Journal of IAOS (SJIAOS)

The [March 2019 issue](#) of the SJIAOS is dedicated to statistics for Indigenous peoples and has the theme: “Measuring Indigenous Identification.” Michele Connolly, Co-Chair of the International Group for Indigenous Health Measurement is the guest editor, and is the featured interviewee. As Michele notes, “This special edition of the journal is a way of highlighting that we as Indigenous people are still here and that we have an important story to tell.” This issue is Open Access.
