

IASE News May 2019

IASE Satellite Registration Open

Refereed papers have been sent to reviewers, while registration continues for the IASE 2019 Satellite Conference, to be held from 14 to 16 August at Sasana Kijang, facilities of Bank Negara Malaysia, in Kuala Lumpur, Malaysia. Registration includes lunches on conference days. You can also attend a free workshop on 13 August, about statistical posters, computing in R, or simulation-based inference. More information about the satellite is available at iase-web.org/conference/satellite19

IASE at ISI World Statistics Congress

The IASE has many sessions at the main Congress, which will be held from 18 to 23 August at the Kuala Lumpur Convention Centre. The entire scientific programme is available at www.isi2019.org including the following sessions on educational topics. (This is not a complete list, just some contributed papers and invited sessions that the editor noticed that demonstrate worldwide variety.) Please consider attending if some of these presentations sound interesting!

- Determinants of pupils' success in primary schools in Benin
- Developing novice students' initial conception of sample
- Evidence based indicators for local educational monitoring - detective work for the district Berlin-Mitte
- Impact of education and work status on women's empowerment in Egypt
- Improving statistical literacy in Albania, the role of the national statistical institute
- Measuring the cost of producing a graduate of statistics in African universities
- Risk and probability literacy
- Ways to improve critical statistical literacy

Future Conferences for 2020

Although over a year away, abstract submission is open for the 10th Australian Conference on Teaching Statistics. OZCOTS 2020 will occur on 9 and 10 July 2020 at the Gold Coast Convention and Exhibition Centre in Queensland Australia. OZCOTS accompanies the Australian and New Zealand Statistical Conference to be held that week. More information is available at anzsc2020.com.au/ozcots-conference.

Following closely after OZCOTS 2020, the 14th International Congress on Mathematical Education will occur from 12 to 19 July, 2020, in Shanghai, China. Like ICME 12 and 13, there will be separate Topic Study Groups on Probability and Statistics. The Second Announcement will appear soon at www.icme14.org.

If you have information on other conferences related to statistics and probability education, please let the news editor know: adam.molnar at okstate.edu.
