

Bernoulli Society News July 2019

Bernoulli Lectures at the 2019 ISI World Statistics Congress (ISI WSC)

The *Bernoulli President Lecture* will be given by Michael A. Newton (University of Wisconsin at Madison, USA) on "On beneficial ways to combine clustering and hypothesis testing", while the *Bernoulli Journal Special Invited Lecture* will be held by Jonathan Taylor (Stanford University, USA) on "A selective survey of selective inference".

Bernoulli Society New Researcher Award 2019 Session at ISI WSC

The three awardees of the *Bernoulli Society New Researcher Award 2019*, Po-Ling Loh, Gongjun Xu, and Lingzhou Xue will speak at an Invited Paper Session on Wednesday, August 21, 2019 at 10:30-12:30 during the ISI World Statistics Congress. The award was for new researchers working primarily in Mathematical Statistics.

Bernoulli Society New Researcher Award 2020

We are happy to announce the awardees of the *Bernoulli Society New Researcher Award 2020*: Li-Cheng Tsai (Columbia University), Nina Holden (ETH Zürich) and Xin Sun (Columbia University). These new researchers working primarily in Probability will participate in an invited session at the BS-IMS-WC in 2020. Along with three awards, honorable mentions were given to Anirban Basak (International Centre for Theoretical Sciences), Ellen Powell (Durham University), Nicholas A. Cook (Stanford University) and Sarah Penington (University of Bath).

Bernoulli Prize for an Outstanding Survey Article in Statistics 2022

Nominations for the prize are open now. The prize will be presented at the 2023 ISI World Statistics Congress. Nominations should include full name and email address of both the nominee(s) and nominator, as well as a pdf file of the published survey article in statistics. The nomination material should be emailed to Professor Qiwei Yao at q.yao@lse.ac.uk. The nomination deadline is February 28th, 2021.
