

Bernoulli Society News December 2019

Friends of COPSS

The Bernoulli Society has become a Friend of the Committee of Presidents of Statistical Societies. The Friends of COPSS are affiliated professional societies that also promote discovery and practice of statistical science, but do not hold member status in COPSS. This designation provides an organizational structure to encourage communication and partnerships among statistical societies with an international perspective and broad range of interests.

Call for Nominations for the 2020 Doebelin Prize

The Wolfgang Doebelin Prize is awarded biannually to a single individual who is in the beginning of his or her mathematical career, for outstanding research in the field of probability theory. Nominations for the 2020 prize are open. Each nomination should offer a brief but adequate case of support and should be sent by December 30, 2019, to the chair of the prize committee, Zhen-Qing Chen, at the e-mail address zqchen@uw.edu with subject heading: Doebelin Prize 2020. The awardee will be invited to submit to the journal *Probability Theory and Related Fields* a paper for publication as the Wolfgang Doebelin Prize Article, and invited to present the Doebelin Prize Lecture. For more information please see www.bernoulli-society.org.

Frontier Probability Days (FPD'20)

May 8 - 10, 2020, Las Vegas, Nevada, USA

lechen.faculty.unlv.edu/FPD20/

The Frontier Probability Days is a regional workshop, taking place in 2020 at the University of Nevada. Its purpose is to bring together mathematicians, both regionally and globally, who have an interest in probability and its applications. FPD aims to complement other regional conferences in Probability that are held annually elsewhere in the United States.

International Symposium on Nonparametric Statistics (ISNPS2020)

June 15 - 19, 2020, Paphos, Cyprus

cyprusconferences.org/isnps2020/

The conference will bring forth recent advances and trends in several areas of nonparametric statistics, in order to facilitate the exchange of research ideas, promote collaboration among researchers from all over the world, and contribute to the further development of the field.

The program will include plenary talks, special invited talks, invited talks, contributed talks and posters on all areas of nonparametric statistics.
