ISBIS 2020: International Symposium on Business and Industrial Statistics

The **ISBIS** biennial international symposium, **ISBIS 2020**, will be held from July 28 to July 30, 2020, at Brock University in Canada (20 minutes' drive from Niagara Falls!). The conference will be hosted by the Faculty of Math and Science at Brock University. Comments and suggestions can be made to Professor Ejaz Ahmed (seahmed12@gmail.com). More details about the conference will be released later. We look forward to the strong attendance and participation of ISBIS members and friends.

As the conference program is developing, we are happy to announce that we have four confirmed keynote speakers:

- Stefan Steiner (University of Waterloo)
- Julie Novak (Netflix)
- Bonnie Ray (Talkspace)
- Bianca Maria Colosimo (Politecnico di Milano)

We also have two confirmed short courses:

- Rafal Kulik (University of Ottawa) on Financial Statistics
- Vadim Sokolov ([George Mason University](#)) on Deep Learning

ISBIS Invited Session at CARMA 2020

ISBIS is hosting a session titled “Analytics for Complex Data” at The 3rd International Conference on Advanced Research Methods and Analytics (CARMA 2020). The session is chaired by Caterina Liberati. The conference will be held from July 8 to July 9, 2020, in Valencia, Spain. More information about the conference can be found at carmaconf.org.

International Conference on Advanced Statistical Techniques in Business and Industry

This is a regional conference of ISBIS to be organized by the Department of Statistics, Cochin University of Science & Technology, Kerala, India. The conference will be held from 28

December to 30 December 2020. The primary objective of the conference is to provide a platform for disseminating recent developments on statistical methods for different fields of application in general, business and industry in particular, with an aim to expose young researchers and students to ideas in the theory and applications of Statistics. See the [conference website](#).
