

STCPMs

STCPM 1 How to Find Respondents with a Disclosure Risk and What to Do to Protect their Data

Assessing disclosure risk under misclassification for microdata

Hybrid Data from Synthetic Data and Microaggregation

Re-identification Studies

Subsampling With Synthesis: A New Strategy for Public Use Microdata Files of Census Data

Synthetic Data: Combining the Cryptographic and Statistical Disclosure Limitation Approaches

STCPM 3 The 2010 round of Population and Housing Census: innovations and challenges in developing countries

Costing Guide for Population and Housing Censuses

Improving Administrative Registers for Population Statistics in Turkey

National Population Register (NPR) in India - A Step Towards Register Based Census

Preparing the geography for the 2011 Population Census of South Africa

The 2010 Indonesia Population Census

STCPM 4 Innovative Methods for the 2010 Round of Population Censuses

Coverage Improvement and Measurement in the U.S. 2010 Census: Innovation in Response to Census 2000

Effective Control Systems in a Multimode Census Data Collection Methodology

The evaluation of the capturing system using scanning technology: Challenges in measuring completeness and quality of Census data processing in South Africa

The French population census: first elements of evaluation of the rolling census

The joint pilot tests on disability for 2010 Population Census Round in three Latin American Countries

STCPM 5 Statistical methods applied in GIS and remote sensing

An optimal spatial sampling scheme to characterize mine tailings

Analysing GPS tracking data of animal movements in the Kruger National Park

Evaluation of discrimination measures to characterize spectrally similar leaves of African Savannah trees

Modeling multivariate spatially correlated frailty effects using Bayesian survival methods

The use of Sample Statistics, Earth Observation and GIS in the South African Crop Estimation System

STCPM 6 Data mining methods

Action Selection in Customer Value Optimization: An Approach Based on Covariate-Dependent Markov Decision Processes

Data Mining Application for Cross-Sell Offer Optimization

Dynamic Pattern Recognition using Data Mining Techniques

Optimization of Orange Cote D'Ivoire's Customers Satisfaction Barometer: Case of Prepaid Customers

Predicting Using Ensemble Classifiers for Sensor Data
Trends in Data Mining Technology

STCPM 7 **Data mining applications**

Consumer-based market segmentation based on Association Rule and RFM
Dust to Diamonds
From market segmentation to customer loyalty: an exploratory study
Interesting Association Rules of Household Poverty Indicators
Mining Association Rules beyond Market Research

STCPM 8 **Copulas**

Bootstrap-based tests for two measures of association
Copula Approximations
Directional Dependence of Survival Truncated FGM Type Modification Copulas
Kernel estimation of copulas

STCPM 9 **Developments and Progress in Applied Statistical Modeling for the Economic Sciences: Using Non-parametric Regression Methods**

Identifying monotonic and non-monotonic relationships
Methodological challenges in measuring business concentration as an official statistic: The Case of the Hirschman-Herfindahl Index

Model-assisted Survey Regression Estimators: A Rank-based Approach
On Restricted Linear Regression Model

STCPM 12 Quality Assurance of National and Cross-National Statistics

Consequences of a fully developed quality report system based on a 5-years experience at Statistics Austria

Quality Assessments in Eurostat: the experience from Rolling Reviews

Quality assurance activities at Statistics Portugal

The application of the ECB Statistics Quality Framework to the construction of sound statistical indicators

STCPM 13 Integrity: a Fundamental Principle in Producing and Disseminating Statistics

Independence in Official Statistics – the impact of the European Code of Practice with regard to credibility of the European Statistical System

Integrity in Statistics - A Caribbean Perspective

Strengthening integrity in the UK's decentralised statistical system

The impact of the ES Code of practice for a National statistical system

The importance of Code of Practices to enhance Staff's integrity

STCPM 14 Statistical Training and Education

European Statistical System - The new Learning and Development Framework (ESS-LDF)

SCA-ECLAC Knowledge Transfer Network

Statistical Education System including e-Learning of Statistical Training Institute of Korea
TBA

The General Data Dissemination System (GDDS) - A Reflection on its First 12 Years and Plans for Taking it Forward

STCPM 15 Coordination of international statistical activities

Co-ordination in the Global Statistical System: a possible way forward

Coordination of Statistical Capacity Building Activities: Developing Country Perspective of the PARIS 21 Initiatives

Role of the UN Regional Commission in Coordination of Statistical Activities

Statistical Coordination in Africa

STCPM 16 Subjective Data Analysis in the Perspectives of New Approaches in Measuring the Well-Being of Societies

Composite indicators for evidence based narratives

Measurement requirements for comparative research

Validating Subjective Measures: A Multilevel View

STCPM 18 Agricultural and Rural Statistics

Challenges for Statistical Methodology in Modern Agricultural Statistics

Interrelation between Agricultural and Environmental Statistics

Low-Income Farm Operators in the U.S.: Concept and Measurement

The Importance of an Agricultural Frame on Decision-making

STCPM 19 Global Adult Tobacco Survey (GATS) - National Household Surveys on Adult Tobacco Use across the World: Coverage and Comparability

GATS Brazil: Implementation and Challenges

GATS Egypt: Implementation and Challenges

GATS Standard Protocol

GATS Turkey: Implementation and Challenges

STCPM 21 Problems of cross-national/multilateral comparability

Cross-national Comparability: Relevance and Reality for an NSO

Rationality of using composite indicators for international comparisons

Remark on homogenization of the data

The extension of knowledge of statistics through the Slovak Statistical and Demographical Society

The Structural Analysis of the Foreign Trade Activity

STCPM 22 Using advanced data collection methods and modern tools to improve agricultural statistics data quality

Small Area Estimation in crop land area in Ethiopia

Use of Community Surveys in Agricultural Statistics

Use of modern geo-positioning devices in agricultural censuses and surveys

Use of remote sensing and IT for building and updating area frame for agricultural surveys

STCPM 23 The American Statistical Association Educational Ambassador (EA)

Enhancing the Statistics Profession Globally Through an Educational Ambassador Initiative
Experiences in transferring of knowledge from Continuing Education (JSM) in Vietnam
Transferring Knowledge in South and Central America - Microarray data analysis

STCPM 24 Violence against Women: How Indicators can Influence Policy Development

Designing and Conducting Surveys in Adverse Conditions
Italian Violence against Women Survey: Lessons for the Policy Makers
Statistics and policy making on men's violence against women – the Swedish experience

STCPM 25 Issues facing Women in Leadership roles in Official Statistics

STCPM 26 Advances in the Collection of Disability Statistics

Development of an Internationally Comparable Disability Measure for Censuses: Challenges and Opportunities
Joint Pilot Test for Disability for 2010 Census Round in Latin three American Countries
Recent Advances in Disability Statistics Measurement in Uganda
The Tanzanian survey on disability – methodology and overview of results

STCPM 27 **Interactive, data-driven and technology-enhanced approaches for probability and statistics education**

Concepts of Statistical Inference: A Randomization-Based Curriculum

Examples of Embedding SOCR materials in Undergraduate Statistics Curricula

[Quantitative and Qualitative Assessment of Technology-Enhanced Probability and Statistics Education](#)

Teaching and Assessing Statistics Education using Technology

STCPM 28 **Measuring bank services: Further developments**

[A risk-adjusted FISIM: practical issues in price and volume measurement of financial services in the national accounts](#)

[Bank services: Some reflections on the treatment of default risk and term premium](#)

[Measuring the services of commercial banks in the NIPAs](#)

[Risk and Implicit Output of Bank Services](#)

The measurement of financial services in the national accounts and the financial crisis

[Treatment of risks in the estimation of FISIM](#)

STCPM 29 **Compiling Labour Statistics in Africa's Emerging Economies and Changing Labour Markets**

[Compiling Labour statistics in Africa - A case study of South Africa](#)

TBA

TBA

STCPM 30 Multisector Development in Africa and the Role of National Statistical Systems

How Statistics Improved Decentralization Policies and Approach to Local Development in some African Countries

Le Rôle Du Système Statistique Africain Dans Le Processus D'intégration Africaine

Partnerships in the Production of Educational Statistics - Lessons from the South African Experience

Strengthening Statistical Systems within the Framework of the Plan for National Statistical Development in Uganda

STCPM 31 The National Strategy Development for Statistics (NSDS) Process in Africa

A system wide approach for supporting the development of official statistics in Africa

Developing a blueprint for implementing a National Statistics System

Models of Statistical Governance of Official Statistics

Strategie Nationale de Developpement de la Statistique du Senegal

The Ethiopian National Strategy for the Development of Statistics

STCPM 32 The General Data Dissemination System (GDDS) for Africa – Building Capacity Development in Statistics

GDDS II Project to improve health statistics in Mauritius

GDDS II Project: Designing a Labor Force Survey for Uganda

Impact of the GDDS project on the Statistical System in Namibia – Stocktaking considerations

Meeting the Needs of Kenyan Justice and Security Statistics: Evidence from General Data Dissemination System

STCPM 33 Household Surveys in Africa: New Challenges

A review on HIES and BAIS-II Survey Designs

Analysis of health care in Africa based on household surveys

Household Surveys in Africa: A case of Ghana

TBA

STCPM 34 Data Challenges for Monitoring the MDGs in Africa

Data challenges for monitoring environmental sustainability

Data challenges for monitoring the MDGS in Africa – HIV/AIDS prevalence data

Data challenges in monitoring MDGs in Mauritius

STCPM 35 New Development Challenges and New Development Partnerships: The Relevance of Statistics

Challenges for inclusive development in post-conflict situations: the role of statistics

New Development Challenges and New Development Partnership: Relevance of Statistics

The General dData Dissemination System (GDDS) a reflection on it's first twelve years and plans for taking it forward

STCPM 36 **The 2010 Round of Population and Housing Censuses: An Evaluation of African Countries**

An Evaluation of the 2010 Round of Censuses - The Liberian Experience

Census Undertaking in Pastoral Areas and Application of New Technologies in the 2007 Population and Housing Census

Challenges in Census data processing using contemporary technologies: The case of Malawi Experience and Lessons Learned in Conducting Post Enumeration Surveys in Sub-Sahara Africa: A case for Tanzania and Uganda

Planning and coordinating a census in a post-conflict situation; a case study of the 5th Sudan population and housing census

STCPM 37 **Restoring Statistical Systems in Post-Conflict Countries**

Afghanistan: Conflict and Statistics, Problems and Challenges

Cambodian Statistical System since the downfall of the Khmer Rouge Regime

Statistics and Conflict: Case of Sudan

The Role of Statistics in a Fragile Conflict State

STCPM 38 **Agriculture and Food Security: Developments in Africa**

Financing of Agriculture and Agricultural Growth: Case of Burkina Faso

Research on Development Targets of Modern Agriculture of Fujian Province

The Base of Operations: Estimating New Zealand's productive capital stock of non-agricultural land

The Development of the Agricultural Sector Strategic Plan for Statistics: A Data Collection Plan for Agricultural Statistics in Uganda

The Impact of Training of Farmers on the Agriculture Productivity in Mali

STCPM 39 Public Health Issues in Africa: The Challenges of Evidence for Monitoring & Evaluation

Factors influencing replacement feeding practices among HIV positive mothers attending the PMTCT program at Gulu Regional Referral and St Mary's Lacor Hospitals - Northern Uganda

Factors that affect adherence to antiretroviral therapy over time in South Africa

Impact of HIV/AIDS on Development in Sub-Saharan Africa

The Effect of Voluntary HIV Counseling and Testing on Marital Stability Among HIV Discordant Couples in

STCPM 40 Surveys Theory and Methodology

Estimation of Population Mean in Surveys with Imputed Data

Hot-Deck Imputation and its effect on variance estimation with reference to Quarterly Labour Force Survey

Imputation for non response

Nonparametric Imputation Methods With Data Missing At Random

To impute, or not impute: that is the question

STCPM 41 Social Accounting and Tourism Statistics in Africa

Age structural transition in South Africa and its policy implications

An analysis of demographic trends for the Hibiscus Coast Municipality to inform strategic challenges

Including a 'Domestic and Outbound Tourism Module' in Household Income and Expenditure Survey (HI/ES); A Ghanaian Experience

Inter-provincial migration in South Africa: A closer look at the characteristics of the migrants and the levels and trend of migration streams

Nature and Patterns of Population Growth in North West Province, South Africa, 1996-2007

Time series analysis: Application to tourism forecasting

STCPM 42 Demographic Trends in Africa: Implications for Development

A Model - Based Study on Regional and Temporal Variations in Fertility Behavior of Indian Female Cohorts Crossing Childbearing Age During 1993-2012

Analysis of socio-economic factors influencing fertility in South Africa

Below Replacement Fertility and the Prospects of Population: The Case of Spain

Ethnic Fertility differentials in Malawi: Searching for an explanation

Fertility decline and fertility preference in Nigeria

Fitting stochastic models to age specific fertility rate in Africa

STCPM 43 Methodological and Measurement Challenges in Economic Statistics

Applications And Methods Of Measuring Variance In The Labor Force
Purchasing Power Parities amongst South African Provinces
Weighting and Estimation Methodology for the South African Labor Force Survey

STCPM 44 Measuring health workforce inequalities: Methods and applications

Health Workers Labour Market in Mexico. Multivariate Analysis of Under- and Unemployment of Four Professional Groups
Inequalities in Technical Brazilian Health Workforce
Measuring health workforce inequalities in the Ethiopian context: methods and applications

STCPM 45 Sports stats

Distribution Modeling of Fantasy Cricket Performance Measures
Generalized Geometric Distribution for modeling Scores in Cricket and Adjustment in Product Limit Estimates in light of Notout innings
Integer Optimisation for the Selection of a Twenty20 Cricket Team
On the probability distribution of overcoming a lead for baseball games
The selection of a South African cricket test squad by means of objective criteria

STCPM 46 Statistical techniques in Disease/Mortality prevalence in Sub-Saharan African countries

Analysis of Childhood Morbidity with Geoadditive Probit and Latent Variable Model: A case study for Egypt

Comparative study between parametric and non-parametric approaches in simulated data for estimating incidence of HIV

Macro Determinants of Spatial Variation of Childhood Mortality in Malawi using Flexible Bayesian Gaussian Mixtures

Modeling HIV-1 disease progression in infants using multi-state models

Socio-demographic determinants of anaemia among women and children in Uganda in 2006: A multilevel analysis.

STCPM 47 Statistics in Malaria

A Simulation model of Anti-malarial Drug Resistance

Development of optimal designs for population pharmacokinetic studies of artesunate

Measures of artemisinin efficacy

Nonlinear mixed effect modeling of drug concentration - time curves when used as prophylactic treatment against malaria in pregnant women.

Statistical methods for the analysis of gametocytemia in patients with malaria

STCPM 48 Economic Accounts and Economic-Environmental Accounts for Food and Agriculture: Design and Practice

Accounting for the Maintenance of Agro-Ecosystems' Total Ecological Potential

Applying SNA and SEEA as a framework for Food and Agricultural Statistics

Towards a System of Environmental Economic Accounts for Agriculture and Rural Development

Water Accounting for Australian Agriculture - Understanding the Economic Impact of a Scarce Resource on a Critical Industry

STCPM 49 Some Current Ethical Issues in Official Statistics

How to react when the independence of statisticians and the integrity of statistics are endangered?

Recent challenges to the ethics underlying official statistics in New Zealand

Recent developments in price and related statistics in Argentina

Regulations and practices for the protection of confidentiality of statistical data: some experiences from Spain

Statistical Confidentiality and UK Population Censuses: Recent History and Prospects

STCPM 51 Globalisation and its effect on economic statistics

European Union integration: cross border payments and their impact on balance of payment statistics

Globalisation - Multinationals and their effect on National Accounts

Globalization and multinationals – goods for processing
Measurement challenges of Globalisation

STCPM 52 Lessons learnt for statistics from the current financial crisis

Further Statistical Work in the Light of the Financial Crisis both within the IMF and with other International Agencies

Statistical needs emanating from the financial crisis and the ECB's initiatives for more comprehensive financial statistics

The European Statistical System's Reaction to the Statistical Consequences of the Financial Crises

What have we learnt from the Global Financial Crisis

STCPM 53 Impact of Social Security and HIV/ AIDS on Household Formation

STCPM 54 Fitting Families of Generalized Statistical Distributions

A New sub-family of the Mirror-Exponential Distribution

Approximate Bayesian Computation for quantile distributions

Assessing the upper limit of a distribution

Method of L-moment estimation for a statistical universe based upon the quantile function

Symmetric Short-tailed Distributions and Applications

STCPM 55 Water Resource Management Issues in Africa

Modeling demand for basic services in South Africa: the case of household dynamics and water connection

Operations Research Practice for Africa (ORPA) - An International Operations Research/Management Science Initiative

TBA

STCPM 56 Re-engineering of business and trade statistics

A TQM approach for re-engineering business surveys

Administrative data use in the Slovenian business statistics

Challenges in globalisation and their impact on business registers

Challenges in using multiple data sources: from VAT data to industrial production and other business statistics at Statistics Finland

The Modernisation of European Enterprise and Trade Statistics (MEETS) programme

Walking a Tightrope: Balancing Budgets, Burden and Demand – Reshaping Irish Business Statistics

STCPM 57 Teaching and Learning Resources using Census@School

Census At School Resources from Canada

Relevant and Engaging Statistics Resources from Census@School UK

The Japanese CensusAtSchool Project: New Resources for School Level Statistics Education in Japan

Using CensusAtSchool as a resource for statistics teaching in New Zealand classrooms

STCPM 59 Quality issues and how to make inference from statistical register

Deriving longitudinal consistent household statistics from register information

Quality tradeoffs when using register based data: Can they be observed?

Unit errors in statistical registers and their effects

STCPM 60 Economics and agricultural statistics: New challenges

A time series analysis of the relationship between inflation and manufacturing productivity growth in South Africa

Data confrontation in agricultural censuses and surveys: An in-depth look at the Census of Commercial Agriculture 2007 in South Africa

Feasibility study for a short-term Post and Telecommunication survey

Food Security and Agriculture in Botswana

Research to model imputation for Census of Commercial Agriculture 2002

STCPM 61 National Accounts

A Multivariate Method For Classifying Economic Institution (Institutional National Account Classification)

Analysis of the impact of the introduction of the NACE Rev.2 in the groupings of the economic activities used in National Accounts

Assessment and Analysis of China's Manufacturing International Competitiveness: A Comparative Study of 40 Economies

Construction of Economy-wide Material Flow Accounts with Hidden Flows for Finland
Research of Sectors Classification Issues on National Accounts
Research of the Index Series in the National Accounts
The Structure of the Eastern Cape Economy: a SAM based Analysis

STCPM 62 Data Issues Related to the Financial Crisis

Credit Risk Transfer: Filling the Information Gap
Fixed Income and Money Market Portfolio Allocation of Institutional Investors during the Recent Market Disruption
On-shore spread and Swap spread: Chilean Money Market Liquidity Indicators
Use of high-frequency data for monitoring developments in Czech the banking sector - the case of the Republic

STCPM 65 Improving quality of statistical processes

A Statistical Quality Management Framework for sample surveys in an Official Statistical Agency
Implementing ISO 20252:2006 "Market, opinion and social research" in a statistical office
Participative quality audits at Statistics Finland
Process orientation - implications on data quality
Quality and standardisation of processes

STCPM 68 Causes of death issues

Changing Trends on Causes of Death among Adult South Africans

Determining Years of Life Lost (YLL) of Leading Death Causes Responsible for Reduction in Life Expectancy (Boushehr -Iran)

More efficient survival studies accounting for misclassified causes of death

The extent of misclassification of causes of death: a case study of Emalahleni Municipality, Mpumalanga Province, South Africa

STCPM 69 Advances in Statistical Process Control (SPC)

A unified approach to the design of Phase I Shewhart-type control charts for location

Control Chart for Autocorrelated Processes with Heavy Tailed Distributions

Design and implementation of a Phase I Shewhart-type nonparametric control chart based on the median

Process Capability Indices for the Balanced Random Effects Model

The effect of non-normality on the performance of the individuals EWMA control chart

STCPM 70 Variance Stabilisation and Meta Analysis

Bootstrap P-values in discrete models: Asymptotic and non-asymptotic effects

Confidence Intervals for the Risk Difference

Variance stabilisation in meta-analysis: combining the evidence

Variance Stabilization of Tests

STCPM 71 Statistically Significant Learning Experiences

Capacity building; making the human resources useful for statistical production – The case of the National Statistical School in Mozambique

Challenges: a Significant Learning Experience in Elementary and Secondary Schools

Creating significant Learning Experiences in Graduate Statistics Courses Through Statistical Literacy Assessments

Learning and Teaching Statistics with Technologies

Methods to enhance student learning of statistics

Statistical Literacy Competitions and Statistical learning

Comparing text similarity measures for attributing time series of graphs

High Dimensional Vector Space Methods for Characterizing Semantic Content

Implicit translation of Wikipedia via Random Graph Embeddings

Text Mining, Social Networks, and Document Clustering

STCPM 72 21st Century Approaches to Text Mining with Applications

Comparing text similarity measures for attributing time series of graphs

High Dimensional Vector Space Methods for Characterizing Semantic Content

Implicit translation of Wikipedia via Random Graph Embeddings

Text Mining, Social Networks, and Document Clustering

STCPM 73 Gender and energy statistics

Gender disaggregated data for gender and energy audits

Using the Household Vulnerability Index to explore options for improved gender sensitive development interventions in an impoverished community

STCPM 74 Applied Statistics

[Bayesian Additive Regression Trees](#) [Sequential Regression](#) [Multiple Imputation](#)

[Biostatistics and Clinical Research: A Symbiosis](#) Introduction by the Organizer

[Modeling Over-Dispersion in Wadley's Problem with the Beta Poisson Model](#)

[Occupational exposures and Hodgkin's lymphoma: Canadian case-control study](#)

[Pre-smoothed Kaplan-Meier integrals and the missing censoring indicator model](#)

[The contribution statistics can make to "Strengthening Forensic Science"](#)

STCPM 75 Bayesian methods for inverse problems

[Bayesian reference analysis for exponential power regression model](#)

[Bayesian Smoothness and Shrinkage Priors in Regression](#)

[Bayesian Unit Root Test in Stochastic Volatility Model with Correlated Errors](#)

[Efficient Derivation of Sparse Representations in Radial Basis Function Regression](#)

[Linear Mixed Models, Fixed Effects or Random?](#)

[Modeling Age-specific Nest Survival Curve Using a Hierarchical Bayesian Approach](#)

STCPM 76 Access to Statistics - Best Practices in Europe

Benefits from international cooperation in the CZSO dissemination

Integrating statistical content in an electronic publishing system

Making sense of statistics

Rich internet applications for the visualisation of statistics: the use of Flash and SDMX-ML on the European Central Bank websites

STCPM 77 Institutional cooperation and technical assistance - steps towards developed statistical systems

A contribution to developed statistical systems in developing countries – the experience of Banco de Portugal

Handling system challenges from the compilation of flow of funds - the case of South Africa

Modeling in Countries with Information Gap – the case of Bank of Mozambique

The importance of the oil sector in the balance of payments: sources, statistics and economic analysis

STCPM 78 Building Real-Time Databases and their use in revisions analysis and simulation exercises

A Real-Time Database for Principal European Economic Indicators

An Area Wide Real Time Data Base for the Euro Area

Performing Revision Analysis on sub-annual data for selected OECD countries

Revisions analysis and the role of metadata

STCPM 79 Capacity Building for Monitoring and Evaluation

Massification of training in the public sector, and its relevance to monitoring and evaluation

[Statistics, Knowledge, Policy: Understanding societal change](#)

The importance of capacity building in statistics for monitoring and evaluation in the South African public sector

STCPM 80 Time series analysis

[Applications of Product models in Financial Time Series](#)

Factor models in time series analysis: Forecasting performance

[Inference for Volatility Models with Applications](#)

[Recursive Methods for Matrix Inversion with Time Series Applications](#)

[Stochastic Volatility Modeling](#)

STCPM 81 Analysis of Panel Data

An Application of SRMI on Panel Data- Results and Further Research

Comparison the Rolling Sampling with the Rotation Sampling in panel survey

How Much Does Urbanization Matter? Panel Data Evidence from West African Economic Performance

Poverty Dynamic in Nairobi's informal Settlements, Accounting for Initial Conditions and Panel Attrition

Reproductive Intention And Achievement: An Experience from Household Level

Retrospective Panel Study in Rural Central India

STCPM 82 Business Registers and the use of administrative data

Business Register Analysis: Case Study

Business Register Review and Enhancement

Economic Statistics Profiling and Quality Management Programme

Enhanced Quality Assurance Program for the U.S. Census Bureau's Business Register

Revised Units Model for Economic Surveys at Statistics South Africa

Towards coordinated maintenance of contact data: Role of the Statistical Business Register

STCPM 83 Recent Advances in Tourism Statistics: Improvements in National Systems of Tourism Statistics, Standards and Tourism Satellite Accounts

Improvements in international technical standards for tourism statistics

Innovations in national statistical data collection instruments

The Development Of A Human Resource Module Of The Canadian Tourism Satellite Account

The Development Of a South African Tourism Satellite Account

Towards guidelines in international statistics on tourism employment

STCPM 84 Use of administrative data

Project to use administrative registers for the Spanish household survey on income and living conditions

Register-based Statistics versus Sample Statistics Case: Finnish statistics on the finances of agricultural and forestry enterprises

Role of the data of administrative sources in the development of the statistics

Utilizing and Alternative Sampling Frame to Produce Agricultural Survey indications
Vital Registration and Other Administrative Records Use in Uganda, A Case of Churches

STCPM 85 Statistical techniques in survival models

A goodness-of-fit test for exponential distribution based on progressively censored data
A nonparametric two-sample test of longitudinal data with unequal termination event times
Analysis of Complex Correlated Interval-Censored HIV Data
Cure Models in Parametric Survival Analysis
Sample Selection Models in terms of Non-Gaussian Distributions
The Dantzig selector in the regression model for right-censored data

STCPM 86 Economic and Financial Crises, Threat or Opportunity for Official Statistics?

STCPM 87 Bayesian methods

A Bayesian approach to model robust designs
A Bayesian Extension of the Global Yield Curve
Bayesian Approach in Estimating Risk Determinants of Infectious diseases
Estimation of lifetimes in generalized gamma distribution
Projection of mesothelioma mortality in Great Britain using Bayesian methods

STCPM 88 Modeling energy demands

Estimation of Monthly Ethanol Consumption in the U.S.

Forecasting Electricity Consumption in Ferrochrome Sector

Modeling and Forecasting Short-term Electricity Demand in South Africa

The relationship between Price of electricity and Consumption of electricity in South Africa between the years 1978-2008

STCPM 89 Extreme value methods

A regional frequency analysis of annual maximum river discharges from selected major rivers in Uganda

Clustering time series of sea levels: an extreme value approach

Fitting Statistical Distributions to Wind Speed Data in South Africa

Modeling Risk on Losses due to Water Spillage for Hydro Power Generation

Statistical methods for the analysis of extreme temperatures

The Effect of Temporal Dependence and Seasonality on Return Level Estimates of Excessive Rainfall

STCPM 90 Theoretical aspects of Small area estimation

A Small Area Estimation Based on Relative Error

On sample allocation for planned small areas

Sample sizes for Small Area Estimation under Stratified SRS Design

Small Area Estimation using Survey Re-weighting and Lorenz Parameterizations

STCPM 91 **Issues relating to censuses**

Comparison of Community Survey 2007 and General Household Survey 2007: Findings on Household Goods and Services

Fieldwork Experiences and Challenges in Data Collection: The Eastern Cape Province of South Africa

Strategy for Estimating Census Coverage in the 2011 Census of England and Wales

Testing the sampling design of the Sudan Family Health Survey using the 5th population census fieldwork

The Dwelling Frame project as a tool of achieving socially-friendly Enumeration Areas' boundaries for Census 2011, South Africa

The Thematic Areas of Liberia's 2008 Population and Housing Census, Their Justification and Essence

STCPM 92 **Statistical models in agriculture and ecology**

Application of Discrimination Analysis in Validation of Methods For Seed Germination Tests

Climatic factors Affecting Optimal Production of Trees

Conceptual Framework and Methodological Considerations for the Design and Development of a Grassroots Focus Index

Evaluation of Varietal and Moisture Content Effect of Some Cowpea Varieties (*Vigna Unguiculata* (L) Walp) on their Bulk Density, Particle Density and Porosity

Logistic models of estimating biodiversity

Prediction of Crown-Width of *Azadirachta Indica* Growing in Jodhpur (Rajasthan, India)

Report back on the satellite meeting on the Role of Statistics Councils in the National Statistics System

Statistical Information in Metastatistical

TBA

STCPM 93 The Role of Statistics Councils in the National Statistics System

STCPM 94 Metastatistical Perspective

STCPM 95 Sports statistics 2

Modeling Athletic Records: Caveats and Guidelines

Researching Data and Publications Related to Sports Statistics

Application of the Graphical Editing Techniques to the Mining and Manufacturing Survey Data

Continuous Improvement within a Survey Environment to ensure a sound Quality System

Data Editing - A Way of Improving Survey Quality - The Experience from the Balkans

Experiencing the Semper Validation Software: Genuine African solutions for data validation within the International Comparison Program

On survey data quality: Use of LogicGem as a tool for quality improvement in processing of household budget surveys

The Analysis of the non-response and the out-of-scope cases as a quality management tool for field operations

STCPM 110 Improving the Quality of Official Statistics

STCPM 111 Indicators and Indices

A simple approach to statistical indicator creation and management in South Africa

Comment on and Analysis of Modernized Life Quality of Fujian

Composite Leading Indicator (CLI) for the Iranian Economic Activities

Optimal Aggregate Indices and Corresponding Elementary Indices

Research on Indicator System for Estimating Happiness Index

The Statistical Method Research on Information Consumption Coefficient and Classifying the Levels of Informatization Development

STCPM 112 Business Employment and Economic growth

Analysis of Income Convergence Across South African Provinces, 1995 - 2007

Assessing the Statistical Methodologies of Business Research in the South African Context

Infrastructure and Good governance as Key elements to promoting equity and Economic Growth In Sub-Saharan Africa

Monitoring Workers' Remittances and Benefits in Uganda: The Statistical Issues

The relationship between economic growth and employment in South Africa: 1994 to 2008

The Third Sector's Contribution to the Local Community's Risk Reduction as an Object of Public Statistics

STCPM 113 Time Series Data

Determinants of Export Growth Rate in Uganda 1987-2006

Long-memory versus non-stationarity: a multi-scale test procedure

Monitoring Calibration of the Singular Spectrum Analysis Method

On two phase polynomial regression under long-range dependence

Re-examination of the Theoretical Model for Global-Flow-of-Funds Analysis

STCPM 114 Applied Statistics

Estimation of a sensitive proportion by Warner's randomized response data through inverse sampling

Experimenting with Training in the Utilisation of Official Statistics for Policy Makers and Social Analysts with No or Little Knowledge of Statistics

Exponential Survival Entropies and Their Properties

On Seven-parameter Generalized Logistic Distribution

Tests for normality in classes of skew-normal and skew-t alternatives

The use of Statistical Inference in PhD dissertations in Biological Sciences

STCPM 115 Development and growth

Constructing and Modelling SAMs from the SNA for the study of impacts of policy measures

Consumer Preferences for Choosing GSM Network Provider Services in Nigeria

HDI Report for Northern Cape

Household Surveys in Africa: New Challenges, Nigeria Experience

The Economic Transition and Growth of Philippine Regions

The impact of FDI on export performance: empirical evidence from EU candidate countries
