Information and Communication is playing an increasing role in society and within our lives. Recognizing this, FICC 2022 aims to provide a forum for researchers from both academia and industry to share their latest research contributions, future vision in the field and potential impact across industries.

FICC 2022 is soliciting high quality papers addressing research challenges in the tracks of Communications, Networking, Data Science, Computing, Ambient Intelligence, Security and Privacy.

Each paper will be reviewed by at least three regular PC members or two senior PC members. The decisions will take into account paper novelty, technical depth, elegance, practical or theoretical impact, and presentation.
