ISI Committee on Women in Statistics

Objectives and expected products

- To promote and strengthen the representation of women statisticians in the ISI and its Associations.
- To help in providing opportunities for women members to assume active and visible roles in the ISI and other statistical associations.
- To collect information on women in the statistical professions in different countries and to facilitate the flow of information among women statisticians.
- To stimulate interest in statistics among women and encourage women students in schools and colleges to study statistics.
- To support the compilation of statistics on women, with a view to generating relevant studies concerning women’s roles in the various activities in their countries.
