International Statistical Literacy Project (ISLP)

The ISLP is a project initiated by the International Association for Statistical Education (IASE), which is the education section of the ISI.

The main objective is to contribute to promoting statistical literacy across the world, among young people and adults, in all walks of life. To this end, it provides:

- an online repository of international resources and news in Statistical Literacy,
- international activities to promote the resources and the individuals and institutions behind them,
- outreach activities to increase awareness.
